Usability (quantitative) questions:

1. How is the content presentation/layout?

2. Are the fonts, colours, and visuals suitable for the organization?

3. Is the layout consistent throughout the site?

4. Is the navigation and information accessible/user-friendly?

5. Are there any features you aren't satisfied with?

General (qualitative) questions:

1. How are the revised buckets? Is 'Organization Management' appropriate in place of 'operations'?

2. Does the footnote require more information?

3. Is there any content that seems confusing or unnecessary?

4. What information should the 'about us' section include/exclude?

5. What improvements would you suggest?
